October 28, 2009 – For Immediate Release

CITY OF CORONA OFFERS ADDITIONAL INCENTIVES TO WATER CUSTOMERS

The City of Corona Department of Water and Power is contributing \$40,000 to increase incentives for water-conservation devices for City of Corona residents.

The money will be added to rebates offered by Western Municipal Water District, the wholesale provider for the City of Corona and Metropolitan Water District of Southern California, the wholesaler for most Inland agencies.

Metropolitan's rebate program, known as SoCal Water\$mart, was re-launched September 21. Funding is limited and residents should act quickly to take advantage of these rebates. The program ends May 31, or when the funds are exhausted.

The total incentives for residential customers served by Corona are: \$150 for high-efficiency toilets; \$150 for high-efficiency clothes washers; \$200 for weather-based irrigation controllers; and 90 cents per square foot for synthetic turf.

To offer Corona residents additional savings, the Department of Water and Power has partnered with several local irrigation suppliers to offer low water-use irrigation equipment at a discounted price for Corona residents. Residents may take their most recent utility bill to any of the following to receive a discount: Ewing, Hendrickson Bros., Hydroscape Irrigation & Landscape Supplies, Lowe's and M&M Boys Irrigation Supplies. Vendors in the City who are interested in partnering with the Department of Water and Power should contact the Department at (951) 736-2234.

For more information on rebates and water conservation, please contact our Water Resources Group at (951) 736-2234 or StopTheDrop@discovercorona.com or visit www.discovercorona.com.
